

THIRD QUARTER

2015 Know Outlets Campaign Impact Report

KNOW OUTLETS
TO SUPPORT INDY'S HOMELESS

For the majority of Indianapolis' homeless population, homelessness is a temporary situation influenced by job loss, domestic abuse, substance abuse, or physical or mental disability. Each year in Indianapolis, thousands of calls for help to homeless shelters and domestic violence shelters go unmet, largely due to capacity issues.

Know Outlets exists to stand in the gap between what local services can provide and what homeless families and individuals need to help them make the leap from temporary shelter to a permanent home. Know Outlets funds have provided funds for rental deposits and assistance, application fees, utility arrears, and more. As a result, 27 families have a new home in 2015. Help us continue this work so that no Indianapolis resident has to wonder where they will spend the night.
